## Compliance with new General Data Protection Regulation

The European Union will shortly bring into force a new data protection regime under Regulation (EU) 2016/679 of the European Parliament and of the Council on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (“**General Data Protection Regulation**” or “**GDPR**”).

Webmart Limited (“**Webmart**”) has entered into an agreement with you (the “**supplier**”) for the provision of certain services (the “**Agreement**”). Pursuant to the Agreement, Webmart may request processing of Personal Data (as defined by the GDPR) on behalf of Webmart’s client. Webmart will also utilise data supplied by you the supplier for use in analysis of pricing and current production machinery in order to facilitate services offered by Webmart.

The GDPR requires that suppliers maintain appropriate measures to ensure compliance with the GDPR. Webmart believes that the Agreement is compliant in most respects with the GDPR, including in relation to material issues such as confidentiality, information security and audit.

As a prudent client, Webmart has already put in place systems and controls which are aligned to the GDPR principles and will continue to implement further improvements to maintain compliance with the GDPR when it comes into force. As part of the process to ensure compliance, Webmart hereby agrees to comply with the measures set out below when providing services under the Agreement, to ensure its compliance with GDPR (capitalised terms used shall have the meaning given in the GDPR or the Data Protection Act 1998, as applicable), and these terms shall be deemed incorporated into the Agreement.

Webmart will:

1. only request to process Personal Data on written instruction from the Client;
2. impose a duty of confidentiality on staff with access to Personal Data;
3. only subcontract and transfer Personal Data outside the countries to which the parties have agreed with the Client’s written approval;
4. require that any subcontractor is obliged to adhere to the same standards of Webmart to meet the requirements of the GDPR;
5. to the extent reasonably possible, assist the Client in responding to individuals’ requests to exercise their rights to notice, access, correction, erasure, objection and portability;
6. implement appropriate technical and organisational measures to ensure a level of security appropriate to the risk and shall take the measures required pursuant to Article 32 of the GDPR;
7. return to the Client or delete all Personal Data in accordance with Webmart’s Client Data Retention Policy at the end of the engagement in accordance with the Client’s request;
8. make all relevant information regarding its data processing activities available to the Client and any relevant regulatory authorities to demonstrate compliance and assist with audits (in accordance with the audit provisions in the Agreement);
9. when responding to audits or other information requests, inform the Client if, in its opinion, the Client’s instructions violate the GDPR or any other applicable data protection law;

10. promptly notify the Client of any security breach impacting Personal Data and provide reasonable assistance with breach investigation, mitigation, and remediation; and
11. assist the Client with carrying out privacy and data protection impact assessments and related consultations of data protection authorities.

Please acknowledge acceptance of the terms set out above by agreement of Webmart's Fair Trade Agreement.

If you have any questions about Webmart's preparations for the GDPR implementation, please email them to: [categorymanagement@webmartuk.com](mailto:categorymanagement@webmartuk.com) and we will respond to your enquiry.
